

The future of technology

Description

RS-DM60 is an online condition monitoring infrared thermal imaging camera developed with new generation uncooled FPA detector. With high thermal sensitivity, clear IR image, accurate temperature and easy operation. RS-DM60 is suitable for a wide variety of applications of process condition non-temperature measure, quick Fault Diagnosis and heat field analysis in field of industry, electricity condition state detection.

Features

- 384×288 Uncooled FPA detector
- Temperature measurement
- Multi-connection mode (LAN or 1394)
- Wide variety of applications
